Krupp SDvt II

cizalla doble ● alimentador de hojas

Pre-owned duplex slitter with feeding unit. The duplex slitter is equipped with a tandem axis frame for the second slitting operation, significantly reducing the time needed to adjust the can height. Especially useful in the production of aerosol cans. The typical changeover time is 3 hours, but now it takes only 20 minutes. Previous owner adjusted the height between 75 and 300 mm. The hard metal cutters can be adjusted hydraulically.

Especificaciones técnicas

CazProductNumber EMPRESA	6498
Nombre	Krupp SDvt II
Herramientas	65 mm
Velocidad hasta	40 sheets per minute
Ancho max de hoja	1200 mm
